

Weekly Activity Report:

**CES Environmental Services, Inc., Houston, Harris County, TX:**

The EPA Site Team will be giving a presentation hosted by the Old Spanish Trail Community Partnership on Monday, February 23, 2015 from 5:30 pm to 7:00 pm. The EPA plans to give an update on cleanup activities and be available to answer questions. CES was in the news last week due primarily to a City Council Meeting that occurred on February 16, 2015. At this time it appears that the citizens closet to the site are supportive of the EPA's actions.

Cleanup Activities Continue: The EPA continued sludge removal activities in the Wastewater Treatment Tank Area of the Site and has completed the majority of the sludge removal. Elevated sulfide levels in one of the tanks will require level B Respiratory Protection (ie. Airline). The EPA will transition to bulking of wastes in various Poly Tanks, Totes, Drums, and Miscellaneous Containers. Costs expended as of February 13, 2015 are: \$ 1,072,000 out of \$2,000,000 approved.
